

BESA LIGHTING
CUSTOM WORKS

Rise at State College

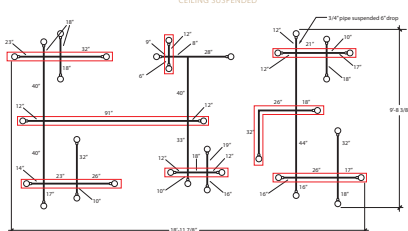

State College, PA

Besa appreciates the Specification market's innovative vision, and in short time we have developed a portfolio of custom projects.

In most cases we are asked for alternative glass colors or metal finishes, but can also range between exceptionally long cord lengths or variations in lamping outputs or color temps...all the way to full custom design based on a photo or "paper napkin" sketch.

BESALIGHTING
